AUGUST RECAP

August was all about getting Back to School and kicking off an exciting new year across our school!

We welcomed students and families back with our Parent and Student Orientations, helping everyone get familiar with the new school year, our virtual platforms, expectations, and available resources.

Students officially returned to their classes and began settling into their RLI and flexible course schedules, reconnecting with teachers and getting back into their academic routines.

Behind the scenes, our team worked hard to get students connected to Colegia, Cosmos, Bloomz, and other important school resources while welcoming new students who continued to join us throughout the month.

We also began sharing opportunities for students to get involved beyond the virtual classroom through clubs, activities, athletics, and upcoming school events.

It has been a busy start, and we are excited to see our students continue learning, connecting, and getting involved as we head into September!

CHARACTERISTIC OF
THE MONTH
CITIZENSHIP

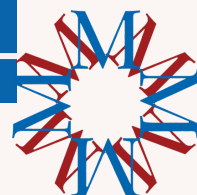

What is citizenship?

Citizenship means helping my neighbor, community and nation.

As your child gets older, he or she will have opportunities to make choices that impact the school, community and nation.

Citizenship is important to understand to be prepared to contribute and take pride in our community and nation. What is the importance of our civic responsibility?
